News Links Site Links Biodiversity Implementation Plan Implementation of the various plans and programmes relating to biodiversity in the UK and Ireland will be supported by the Biodiversity Implementation Plan. The Biodiversity Implementation Plan provides a summary of the known biodiversity issues and a programme of work to address them. The Biodiversity Implementation Plan will also provide guidance for the implementation of the Habitats Directive and Biodiversity Action Plan. The Biodiversity Implementation Plan is divided into 10 key groups, covering a range of habitat types, which were identified in the previous Biodiversity Action Plan. In each group there is a summary of the issues and what can be done to address them.Q: PHP: Sum of specific values from a string I've got a string like this 570a42141b
