What's New in the?

Quran is an educational tool that enables you to read Qur'an books and listen to recitations in Arabic language or English translations. Numerous translations for the religious texts are available right within the software, so that you can easily view the Arabic lines and the desired translation below. Educational and religious tool

Quran is a user-friendly software that features the entire collection of religious texts, available for you to read and listen to. It also contains chapters from the Tafsir, and it enables you to view multiple verses in the display area, along with their translation and the trans-literal spelling. Thus you may easily learn Arabic

pronunciation and words. The Tafsir represents a collection of works designed to interpret the religious texts. The software offers a dual learning mode: listening and reading the transliteral spelling. Both Quran and Tafsir are available in multiple languages, including Arabic, Arabic without Tashkeel, English, French, German,

Spanish and as transliteration.
The display includes the Qur'an
and Tafsir verses translated in
the languages of your choice.
Listening to Quran recitations
You can switch to recitation
mode, for the available chapters,
and listen to the Arabic religious
texts in the language of your
choice. You can listen to the
Arabic recitation, as well as the

English, French or German translations. Moreover, you can watch the verse and translated phrase on the screen. For the recitation mode, the software prompts the full screen mode, displaying one of the integrated images in the background as well as the text and the desired translation. You may easily modify the fonts in the display,

for all the available alphabets:
Arabic, Arabic without Tashkeel
and Roman. Arabic culture,
language and religion in one
application With Quran, you can
easily educate yourself in Arabic
language, pronunciation and
religious culture, due to the
comprehensive methods of
learning. Thus, you can combine
reading with translating and

listening, while working with an easy to use, portable application. Quran offers you the entire Arabic religious book, as well as the Arabic Tafsir. We were presented with an excellent opportunity to showcase our system, software and on-going strategy in an environment which closely mirrored our key global markets, namely: Asia,

Latin America and Africa. The conference was held in conjunction with the launch of Apple's latest generation desktop and notebook computer systems. The exhibition hall was filled to capacity, with IT buyers and vendors alike, all keen to discover what the latest and greatest Apple had to offer. We believe that our in-depth

understanding of the PC industry and the client's needs meant that we were ideally placed to exhibit and had great interest from buyers. This was a great opportunity to network with our Apple rivals, who all provide a viable alternative to the dominant global desktop market share. We were really

System Requirements:

**Minimum: OS: Windows 7 /
Windows 8 / Windows 10 /
Windows Server 2008 R2 /
Windows Server 2012**

**Processor: Intel Pentium E3200
(2.4 GHz) or better Memory: 1
GB RAM Graphics: Microsoft
DirectX 9 graphics device**

Storage: 1 GB available space
Additional Notes: VAC requires
2 GB of RAM, more RAM will
lead to improved performance
Recommended: Processor:
