Phone I'm back with another giveaway. This time for all the avid windows xp users. There is a beta version (in Romanian) of The Witcher 3 which has a lot of issues. Each version will cost you 4 euro's plus international shipping. You can expect to receive the file tomorrow unless I encounter a issue in that area. Let's be clear at the start. I do not hate Windows, nor do I hate anyone with a Windows PC. I just don't like to hate anyone. No crazy religious arguments. No political drama. You should have that attitude about others but not about yourself. I'm not a Nazi. I'm not a racist. I'm not a bigot. I'm just a regular person who seems to get along better when I leave everyone else out of it. Here's the

deal, it is Windows 7 and I would love to have that system too. Please understand that I don't want to sound immodest but I could get down to business right now if I wanted to. Don't worry about me, I'm not posting nude pictures. I don't even have a Facebook account. You'll have to trust me on this one. Hit the link to the giveaway and let's get started. The file should arrive at your email address within the next day. You have to use it within the next week. I don't care if it's already on your system. If it's older than that then I'll just make a new Windows 7 iso for you. If you mess that file up I'll be angry. Ok, do me a favor. Don't open that email. Do you think this is for real? The email contains a file that you need to email back to me. You need to double check

Monday, November 26, 2008 First things
first, we visited the museum and were
pleased to meet a young student, say 3-4
years old. The kid asked his mother to
please let him walk in the exhibit and pet
the tiger! The man at the exhibit introduced
him to the facts about animals. The kid sat
and watched the tigers pacing, standing and
sleeping. He then asked if he could pet the
tiger and requested that his mom allow him.
Then we went to the tiger exhibit and
watched the tigers eat, sleep and play. It

was fun to see the kid getting to see the tigers
