"Overall, I love the graphics, it has a very strong sense of design and it's very well built. The story is very unique and very engaging." - X-Kisses-GameDynasty (×○○) "It has a very very long story that really draws you in and makes it feel like you're playing a really long RPG. It's a game that's worth purchasing whether or not you're interested in the Elden myth." - DummyKnuckles (□□□) "It's got a rich story that you can't just skim through. The mystery of how to proceed through the game is what drives you forward." - Good2D (□2D), (×○○○) "The main characters' personalities are all unique, and the game has a very long story that's told in bits and pieces in order to make the overall plot more complex and unpredictable." - TraitorX (●●●), (×○○○) "It's an all around great game. Anyone who loves fantasy or has interest in it will enjoy this game. It's an all-around great game. What's new in Elden Ring:

Dear Customer, your use of our products.>Unchanged Thank you for providing feedback on [SUMMARY].

Please note that while TELINKSSpotter has been well received by both players and admin staff, it did raise issues with the wireless features of TSP. Please remember that you will never, never be able to use the wireless features of TSP at TELINKSSpotter's full capacity in the real world.

As TELINKSSpotter is a fantasy role-playing game based on role-playing principles, in TSP (as well as in the actual physical space) your characters will be hostile to other players when they are at full power, doing their jobs, so you are allowed to and you really should fight them otherwise your enjoyment and progress will be significantly reduced.

This is a game of personal power and prowess, there is no reason to all be teleguided or not to leave town, and players are the ones who need to think about not killing people while at full power.

But if you do want to kill, please be aware that you will always be able to choose to come back to the real world, and TSP is the kind of game where the experience of defeating a boss monsters can be achieved in many different ways. That is to say that victory is not the only way to be happy. If there is something you want, be it a good lookin', long-lasting, bigger sword, a rare monster, a special crystal, or whatever else, that is fine, and if you demand something that you absolutely cannot achieve, you will never have peace of mind in TSP.

TL;DR version:

Physical space is a setting and life and death situation, their presence is real.

TSP is a cooperative, friendly, and capitalistic game made just for fun. Within TELINKSSpotter lies an entire world full of adventure, fantasy

Field of the Invention The present invention relates to an image coding apparatus and image coding method, and a program thereof, and more particularly to an image coding apparatus and image coding method, and a program thereof which can obtain excellent coding efficiency when a color image is subjected to orthogonal transform coding. 2. Description of the Related Art In general, in an image coding apparatus, a color image is subjected to orthogonal transform coding such as two-dimensional discrete cosine transform, frequency transform, or the like, and is converted into image data composed of luminance and color difference signals. The image data thus obtained is converted into bit stream data, and is then recorded on a recording medium, or is transmitted to a remote terminal. As the orthogonal transform coding method, there are known, for example, DCT (discrete cosine transform), which is a type of two-dimensional discrete cosine transform, for example. DCT is a method of transforming an n-dimensional signal vector x (n is a natural number) into an n-dimensional transform coefficient vector u (n is a natural number) by the following equation (1). In the equation (1), r is an integer of 0 to n-1, and t is an integer of 0 to n-1.
