When I run git push heroku master everything works fine but when I try to run npm run build then it gives me this error: we are using npm module bundler. please make sure webpack command is included in yml file. webpack should be set in command in package.json file. I'm pretty sure I'm doing everything right but I don't know where the error is. A: First, don't forget to remove the dot at the end from your.gitignore file. Then make sure that you have the yarn command installed, it should be used to build your project instead of using npm to bundle files. Install yarn: yarn add -g yarn Make sure to put yarn before your build command in.gitignore, as it doesn't ignore yarn by default: yarn Make sure that your build command in package.json is correct: "build": "cross-env NODE_ENV=production BABEL_ENV=production webpack --progress --colors --config build/webpack.config.prod.js" The far-from-friendly couple will reunite in a record-breaking dance-off on Dancing With The Stars! Ryan Lochte and his wife, Kayla, are the first celebrity couple to go head-to-head on Dancing With The Stars. The Olympic swimmer — who has not taken part in DWTS since 2012 — and his wife, Kayla, join a supergroup of celebs who will duke it out in the season 16 premiere
