4. With the Moonlight Heart Hate scented the air like smoke, like a smoking wick with a fuzzy end in the face of fire. At first, I'd thought it was sulfur, or some other unfortunate creature who'd died trying to fight against the darkness in Domizi-cho. But that was not the case. Only three days had passed since Lord Sabaku and Lord Grand Dragon Tengu's tragic deaths. No, this was the scent of something far worse. Damnation. The smell drew me closer to a large black tent near the edge of the forest and beyond that, to another wooden building that hid the large wooden kite overlooking the city. Beside it, letters gleamed in the firelight: Next to the Silent Couple-san Our Secret Location Today Next to the Silent

Couple-san Our Secret Location Today But I found only the girl and man with the yellow masks. The man held something in his hand. I recognized the nasty, vulgar object at once: roasted goat's head. It's an atmosphere game and I don't make any kind of minigames. Only thing I do is make sfx. I spent a lot of time designing the walls and environment in the game. Very real with details. You'll see it once you play it. I'm a graphical artist and I've changed a lot of things about the art. I made a mistake in the beginning of the development where I needed graphic quality from an engine and I made the engine. It wasn't a good decision and I ended up making the game myself. The most difficult part of the game is that you need to make it and get resources to do it. The art is not easy. You can download the game in 1 minute and play it.
