Haunting Robot Daycare is a mysteriously abandoned, single-player pixel art game. It takes place in the Secret Laboratory, which is located in a vast factory that is being shut down for good. When you accidentally free the robot that has been controlling this facility for years, you find yourself trapped inside...The White House is not alone in President Donald Trump's defense when it comes to his comments about immigration. A woman who allegedly works for him on domestic policy also defended the president's comments about migrants crossing the border. Jackie Calmes, a New York Times reporter who has been covering the Trump administration for months, said Trump's supporters have become "increasingly insistent that he has been telling the truth about the migrant caravan." "There's a range of rhetoric from outright

---

denials to lots of assertions that people of the caravan are rapists, that they're children carriers, that they're bringing drugs and crime into our country," Calmes said. Calmes added that her sources would not deny Trump has been making such claims. "Their view, I've heard many times, is that these are the orders that they have been issued to really whip people up," Calmes said. Trump's supporters believe his orders are the same as they were during the Obama administration, when undocumented immigrants were apprehended at the border. "We never did that. Never said, 'We're going to go and go pick up people from the southern border and drag them back.'" The supporter even criticized the media for reporting the comments Trump has made about the migrants. "The notion that we would be bringing people out of a country and bringing them back, and going through the southern border, is ridiculous." Calmes pointed out that the Trump administration has taken in more migrants from Central

---

America than the Obama administration. “I heard, again, and again, people saying that it was Obama and the Democrats that were responsible for those failures to secure the border,” she said. Trump has made comments that contradict his administration’s official story about how the migrants have been entering the country. The president has claimed the migrants have been blocked by the Mexican government. But the Times reported in January that Trump asked border agents to turn away people seeking asylum and c9d1549cdd
