

I downloaded the.rar file and then replaced the autocad utility files in the existing Navisworks\Autocad and Navisworks\Inventor\Addin directories. As an alternative, and to be safer, you can use a 32-bit AutoCAD or Navisworks and an updated version of the 64-bit AutoCAD Addin. But you will have to disable any 32-bit addins before re-installing them (so you will have to start AutoCAD or Navisworks first, if you have more than one) For example, if you have both 64-bit AutoCAD and 32-bit Navisworks installed, run 64-bit AutoCAD from a 64-bit Command Prompt: `cd %windir%\Autodesk\AutoCAD 32-bit Navisworks` from a 32-bit Command Prompt: `cd %windir%\Autodesk\Navisworks Alternate Way` Replace all the 64-bit libraries in the "C:\Program Files\Autodesk\AutoCAD\Lib" folder with the 32-bit versions. Note: If you do this, you will have to set AutoCAD to use the 32-bit versions (Tools | Options | Application | AutoCAD Runtime) You could also try the "Replace only if the files are listed" option The 32-bit version of AutoCAD Addin can be found on the Navisworks Support site. A: Try replacing autocad32.dll (or "autocad32.exe") with autocad32.64.exe, located in autocad\Addin directory. This is the 64-bit version of the 32-bit autocad addin. (This is what i had to do, as i had an old copy of autocad32.dll, that was 32-bit and "sluggish". Replacing the 64-bit version fixed the problem) Q: Show that $E \subseteq \mathbb{R}$ is measurable and $E \in \mathcal{E}$ if and only if $E = \mathbb{R}$ Show that $E \subseteq \mathbb{R}$ is measurable and $E \in \mathcal{E}$ if and only if $E = \emptyset$

Download the latest version of Navisworks Freedom 2016.exe from the official site. Search for Navisworks Freedom 2016.exe and download it to your PC..
