For more information, visit: www.naver.com/fantasy/biomoon Available languages: English, German, and French As used herein, the terms “user equipment” and “UE” can refer to wireless devices such as mobile telephones, personal digital assistants, handheld or laptop computers, and similar devices or other user equipment that have telecommunications capabilities. In some embodiments, a UE may refer to a mobile, wireless device. The term “UE” may also refer to devices that have similar capabilities but that are not generally transportable, such as desktop computers, set-top boxes for television, or network nodes and associated UE or UEs. As used herein, the term “UE” or “user equipment” refers to equipment that can communicate with other equipment, such as an access device and a host server, but that does not include servers. UE may comprise a wireless device. Such a UE may receive communications from a base station or other equipment. A UE may also be referred to herein as a wireless device. As used herein, the term “cell” can refer to a coverage area of a wireless communication system. A cell or region may provide a radio coverage area in which a wireless communication device can communicate with the access device, and may be referred to herein as a macro-cell. The macro-cell may correspond to a cell that provides a relatively wide coverage area. A UE in a macro-cell can receive relatively high bandwidth signals and be served by a strong transmitter in a BTS. A UE in the macro-cell may use the same BTS and a BTS in a pico-cell to communicate with the access device. The UE in the pico-cell may be referred to herein as a UE in a pico-cell. A UE in a pico-cell may receive lower bandwidth signals than a UE in the macro-cell, but a BTS in a pico-cell may transmit stronger signals to the UE in the pico-cell than the BTS in the macro-cell. A UE in a pico-cell may communicate with the access device through an AP in the pico-cell. The

Gameplay novel: Game story: Technical diary: Various other details: Today, we would like to announce The Elden Ring for PlayStation 4. An innovative fantasy RPG that blurs the line between fantasy and reality. A heroic fantasy RPG where you explore a vast world to defend it. An action RPG where the mind and body are integrated. An adventure filled with unexpected moments. Experience the grand adventure of a new fantasy RPG where you take the role of a hero. A tale of a future fantasy world where the unstoppable force of "Elden" collide. An adventure with the full potential of a next-generation story experience. After a nine-year absence, GWAR has announced they'll be making their way back to the live stage this fall at PlayStation Theater in New York City. And that's not all they'll be bringing. The War-God-slaying metal kings have a new album coming out in October. They'll also be bringing Oderus Urungus (the shock rocker formerly of Psyopus) on the road to help them out. Another surprise guest is too. The War-God-slaying metal kings have a new album coming out in October. They'll also be bringing Oderus Urungus (the shock rocker formerly of Psyopus) on the road to help them out. Another surprise guest is too. Well, it took 11 years, but after a career as prolific as GWAR's they finally get to see themselves live on stage. This past fall GWAR performed at the annual music festival SXSW and now this fall they're touring their first live show. The cover art for their new record arrives, which you can check out down below. They also have one of their most horrific song titles yet: "Metamorphosis." Now, GWAR is coming back this fall with a new album and Oderus Urungus on the road with them. Good news! GWAR has a new album coming out, and they're coming to Philadelphia in October to play it for us. They've also released the music video for their new single "Terror of The Zygons," which you can check out below. The new album, The Blood of Gods, comes out on Halloween, and they're coming to Philadelphia to play it. GWAR is back with a new album, and you can check out the new track "E.B.E."

Deep Dungeon will be releasing for Google Android devices in Japan on September 4th. During the early stage of development, we occasionally conduct testing sessions with our beta testers for Android. And we're happy to announce now that we received many messages asking for details about the closed beta test-release! Our data analysis team is diligently working to identify anomalies in the timestamps of accesses to the test-release and there has been no unusual access or abuse record that can't be attributed to the test-release period. Below is a collection of screenshots from the reported findings. We hope that you are planning to join the closed beta test-release in Tokyo if you're interested in a new dungeon-crawl game!

***Notice*: 1. The following images are "free photos" of development in progress. We will use "free photos" like this for future screenshots as well. 2. We appreciate your cooperation with our efforts to protect our internal sources and our customers. Please refrain from the activities of investigating or chatting about "test-game content" freely, or sharing the test-game content outside.**

Please also observe the following conditions. 1. Please operate the test-release as a test, and we will do our best to adjust the test-release settings if necessary. 2. Please restart your device after the test-release if you're on Android 8.0 or lower, but please don't repeatedly restart your device. 3. Please only access and view the profile content of other players when we announce the test-release. Please do not access and view the profile content of other players before or after the start of the test-release. 4. With your own source of responsibility, please refrain from use of a debug key that interacts with our test-release.
