New research from Mercatus Center economists finds that government spending and policy has a substantial impact on the level of U.S. poverty, including its intensity. A new Mercatus Center research shows that federal spending can and does mitigate poverty and that President Barack Obama's stimulus package actually worsened poverty. The research, "Spending to Combat Poverty: Why It Works and Why It Doesn't," documents the positive correlation between public spending and poverty. Federal spending on anti-poverty programs reduces poverty by increasing income among low-income households. However, federal spending on federal anti-poverty programs can do nothing about poverty that occurs in the private economy. The study examines poverty in the U.S. from 1968 to 2011 and compares poverty in c6a93da74d
