Single player campaign of Diablo II: Lord of Destruction. While the story would seem familiar to fans of the Diablo series, it's a major departure from Diablo's usual battle system, as Diablo II: Lord of Destruction is a real-time hack and slash, third-person action game (like Diablo III), with a story that takes place a little before the events of Diablo III. It is also the first game in the series that is not based on the Diablo III engine, and uses an updated engine that only supports Mac OS and Mac OS X. Though it was released for Windows, the game is available for Mac users through Brew Your Own Studios. The Beta Test is a story-driven, first-person action roleplaying game developed by Blizzard North. It is the first Diablo installment for the Apple Macintosh platform, and was the precursor to the game's sequels. It takes place between the events of Diablo II: Lord of Destruction and Diablo III, and opens during the events of the Worldstone's destruction.
