2 Oct 2015 - How to Install CWM Custom Recovery on Galaxy Note 10.1 GT-N8000. Step-1. Unzip the downloaded CWM recovery to get the file with tar.md5 extension. Step-2. Now you need to move the tar.md5 file to your memory card. Step-3. Now open the file manager on your phone and find the recovery file. Step-4. Insert the previously extracted memory card into the phone. Step-5. Now go to bootloader mode. To do this, hold down the HOME button on the turned off phone and press and release the power button. Step-6. Run CWM Recovery and copy the recovery.tar.md5 file to the root of the phone's internal memory. Step-7. Next, click the "Install" button.

High On Android Cwm Recovery Gt N8000.tar 11
