VoP (Voice over IP) is a complementary service to VoIP (Voice over IP) that allows you to use your existing voice lines for simple phone calls instead of incurring the cost of a regular mobile phone plan or satellite phone. vocape sports calling record Doesn't work without the Android version 4.0.3. Is vocape the best android app for remembering and sharing phone calls & voice clips? vocape sports calling record When you're calling via VoP, the PC and VoP software maintains a signaling session with an IP address that's associated with your phone number. We've reviewed the competition. Vocape helps you maximize the power of your SIP phone. We've made a few changes to make it easier to use. Is there any way to add more buttons on the front to the voice recorder? Other reviews Unless your PC has trouble recognizing its own IP address, you should see a SIP address (not associated with your phone) that looks like For the iPhone: For better performance, record the call over your WiFi connection instead of the cell tower. The app is for IOS only, but there are many Android apps that will allow you to record your VoIP conversations. Here is a list of some of them.
