What's New in the MoeCams?

If you need a quality webcam software that allows you to broadcast for free your webcam, MoeCams is the answer. With MoeCams you can broadcast in real time your Webcam without any limit of usage or any hosting software. This is what MoeCams has been developed to avoid a lot of limitations and problems of the other live streaming applications. MoeCams is a software that allow you to see your webcam in real time, and broadcast to the world using an open source software. It's simple to use, and easy to set up. In this version, you can broadcast using your webcam, but the following features are not functional yet: A lobby to communicate with your fellow broadcasters A chat room to communicate with the user. Security issues

The MoeCams Project is a non-commercial, personal project which is distributed as freeware, but with an open source license. If you use MoeCams and are affected by a security vulnerability please notify the project.
