

## Portable Efficient To-Do List Crack Free Download [Mac/Win] (Final 2022)

### Portable Efficient To-Do List Free Registration Code X64

Create professional-looking to-do lists with lots of useful options, including spell-checking capabilities. Keep it stored on pen drives This is the portable version of Efficient To-Do List. You may take advantage of the tool's portability status and run it without administrative privileges on the target PC. Plus, you may drop it on USB flash drives to have it with you all the time. Well-organized GUI Attention has been paid to details and you can see that in Portable Efficient To-Do List's straightforward layout. The utility keeps track of all your tasks in a clean panel and helps you filter them by current week, current month, not overdue, overdue, or high priority. Plus, you can hide the completed tasks from your view. Information is displayed about each task with the aid of a table, namely details about the subject, start date, due date, state, and percentage complete. There are also other viewing modes for displaying the tasks, namely tree and card. Tasks can be sorted by subject, attachment, state, priority, or other criteria. Changing the looks of the GUI can be done with the aid of different themes. Create multiple tasks Portable Efficient To-Do List offers you the possibility to store a brand-new task by providing general details about the subject, start and due date, state (e.g. not started, in progress, completed, awaiting), and priority. Plus, you can add labels, set up reminders with audio notifications (WAV, MP3, WMA), and insert custom comments. The tool lets you add attachments, configure task recurring parameters (e.g. daily, weekly, yearly), as well as write personal notes using the built-in text editor. The text editor comes with support for undo/redo actions, clipboard tasks (cut, copy, paste), delete options, text customization (in terms of font, size, color, and alignment), search mode, printing, various emoticons, and tables. Subtasks can be added to the main task. What's more, you are allowed to edit or delete tasks, mark them as completed, alter their priority, and perform searches using filters (e.g. start, due date, creation time). If you delete tasks, you still have a chance to recover them. The app keeps them in its integrated 'Recycle Bin' and helps you restore them on the fly. General configuration settings

### Portable Efficient To-Do List Crack + [Mac/Win]

## Portable Efficient To-Do List License Code & Keygen

Portable Efficient To-Do List is a lightweight and free to-do list manager that lets you plan and complete your daily tasks. Whether you need to keep track of a large number of appointments, or simply want to prioritize your daily routine, Portable Efficient To-Do can be used as a powerful to-do list app that helps you keep your life in order. Compatible with all Windows platforms We have built Portable Efficient To-Do into a standalone application for Windows operating systems, so it doesn't require your personal data to be backed up on a regular basis. This keeps your information safe even if you lose access to your computer or you are forced to wipe your hard drive. Usable without any restrictions The tool is available for download in the portable version, so you are free to use it for your mobile devices as well. Determine the priority By using the built-in scheduling feature, you can set a specific day and time for each task, define a due date, specify whether you want the task to be recurring, and track its progress. The application also allows you to save items into the 'In Progress' folder, create subtasks and mark them as completed. Track personal information You can easily store personal notes with a custom signature in Portable Efficient To-Do List. This makes it easy to keep track of important information about your to-do list and share the information with your friends. Useful reports The app helps you monitor the state of your to-do list by displaying a breakdown of every task by date, task description, and list of comments. You can also export all items to a customized HTML or CSV file. Key Features: Create and manage your to-do list items The app allows you to easily create lists, associate notes with tasks, mark them as completed, and make changes to their priority. The tool also comes with a built-in calendar that helps you organize your daily tasks. Start a task By using the built-in scheduling feature, you can set a specific date and time for each task. You can also set the state of each task to 'not started', 'in progress', 'completed', 'awaiting', 'scheduled', or 'cancelled'. See the list of all tasks You can view the task list in a tree or card view
