How to open new tab and open file in that tab using javascript? I have an HTML link which when clicked opens another HTML page in a new tab. I need to know how to open that new HTML file in a new tab using javascript? I've tried: var x=window.open('', 'NewTab', 'width=1030,height=600'); But it opens a blank page and not the requested page. Any solution? A: Try something like this: var win = window.open('', 'NewTab', 'width=1030,height=600'); var url = win.location.href; window.open(url, '\_blank'); = -1 end if windex == this.windex this.xindex = -1 end end return -1, -1, windex, this.windex end end
