What's New in the?

Manage products and categories with ease The application can be used alongside the web interface, providing a set of functions and tools that can help you carry out daily operations with ease and quickly generate comprehensive, yet appealing reports concerning clients and inventory. It allows the quick management of product categories, enabling you to sort and order products in a comfortable manner. Items can be easily displayed under a different category, duplicated or edited. For your convenience, the application comes with importing and exporting capabilities of product lists from and to Excel. Create orders

and generate comprehensive reports Aside from items in your inventory, Store Manager for osCommerce also enables you to manage manufacturers, suppliers and customers. You can use it to create purchasing orders, as well as create and send order confirmation or other types of e-mails to send to customers. In addition to this, it features a special section dedicated to products that are on sale, so that you can keep track of all the coupons and discounts offered to customers. The integrated report generator can help you gain inside information about products that were most viewed in your online shop or your most important customers. It can also create complete sale reports, orders or products. A reliable tool for any owner of an osCommerce shop If you own an osCommerce online shop, there is no doubt that Store Manager for osCommerce will help you out with routine tasks. Moreover, it can easily be used for building reports that can be analyzed so as to increase the overall management efficiency. Store Manager for osCommerce Review at: Strip The Bones (2010) | Movie Info For this episode we review the 2010 movie "Strip the Bones" starring Emmanuelle Vaugier and Alan Brey. It's another horror film from directorMartin Brest and written by Frank Wildhorn and Kelly Hill. Emmanuelle Vaugier plays Ava, a young woman who moves to Los Angeles to study filmmaking. During her first day in the city, she stumbles across the decomposed corpse of a young woman named Heather, who has just committed suicide a couple of days before. The murder has made the front page of the local paper, and a copious number of officers are on the case. Ava finds herself entangled in this investigation. Heather's roommate, Danielle, becomes protective of Ava after discovering that Heather had stolen Danielle's boyfriend just before committing suicide. The police search for Heather's boyfriend, and while searching through her belongings, they find out that she had an abusive ex-boyfriend named Charlie, whom they think is responsible for her suicide. The chief suspect becomes Heather's ex-boyfriend Charlie. She breaks up with him, and he goes insane. He turns into a madman. He begins to stalk Ava. He sends her strange notes, and she begins to believe that Heather has returned from the dead. Meet the Man Behind the Lyrics - Dan Hart
